Education

Carnegie Mellon University
Class of 2018
Bachelor of Architecture
Additional major in
Human-Computer Interaction

Skills

Product Design
Design Systems
Accessibility
UX Research
Prototyping
3D Modeling
Rendering

Talks

Miller Gallery
SfPC
Reclaim Futures
KISD

Professional Experience

↗ **Alcove**
Founding Product Designer (2022 - 2025)
Led design of platform for carbon removal suppliers to manage complex project data and navigate compliance audits. Built two core products from the ground up—an Inventory Management System and a Compliance Platform—used to ensure audit readiness and scale operational efficiency towards gigaton scale.

↗ **Datadog: CoScreen**
Product Designer (2022)
Spearheaded the post-acquisition design transition of the collaborative screen-sharing tool to align it with the Datadog ecosystem. Created a fully responsive web version of the app and designed key integrations with the Incident Response product.

↗ **Datadog: Notebooks**
Product Designer (2020 - 2022)
Reimagined the Notebooks product with a modern UI. Designed and implemented components adopted across the whole platform. Introduced core features that made it the go-to tool for live documentation, incident analysis, and postmortems for hundreds of organizations.

↗ **Ennead Architects**
Interactive Designer (2018 - 2020)
Led design for SaaS platform that visualizes real-time building occupancy data to inform long-term institutional planning. Created multiple dashboards that integrated BIM models with sensor data and occupancy goals.
